

ENERGY PERFORMANCE PROGRAM PARTICIPANT AGREEMENT

The Participant (being the “**Applicant**” in the Application) has applied for Performance Incentives, in respect of electricity savings achieved at one or more Facilities through operational and maintenance energy efficiency measures and equipment retrofits, pursuant to the Application submitted to the IESO under the Save on Energy - Energy Performance Program (the “**EPP**” or the “**Program**”) in accordance with the Program Requirements. All capitalized terms not defined herein will have the meanings given to them in Schedule A to this Agreement.

In consideration of the Performance Incentives being provided and other good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the Participant agrees to the following terms and conditions:

1. BASELINE ENERGY MODEL AND PRE-PROJECT INCENTIVE

- (a) Upon acceptance of the Baseline Energy Model generated via the EPP Portal and issuance of a Notice of Approval, the Facility will be deemed accepted into the Program, and the Participant shall be entitled to receive an optional, one-time advance of part of its anticipated Performance Incentive for such Facility, calculated as follows: Baseline Energy Consumption * 2.5% * \$0.08/kWh (the “**Pre-Project Incentive**”). Payment of the Pre-Project Incentive hereunder is conditional upon the Participant providing an invoice detailing the Facility which has been approved by the IESO and such additional information as prescribed by IESO to substantiate the payment.
- (b) Additional Facilities may be included for participation in the Program from time to time during the Term by the Participant submitting the required Facility information via the EPP Portal and accepting the Baseline Energy Model generated for such Facility, provided that no new Facilities will be accepted after December 31, 2027.
- (c) The Participant shall be required to report any Non-Routine Event (NRE) to the Service Provider via the EPP Portal as soon as they become aware of such event. The nature of the event (e.g., temporary or permanent), the dates, and an explanation of the event should be provided. In addition, the Participant is required to submit a request for a Non-Routine Adjustment (NRA) within 60 days of becoming aware of such NRE. In the event of disagreement as to whether an event constitutes a Non-Routine Event, the opinion of the IESO shall govern.

2. PARTICIPANT OBLIGATIONS, ELIGIBLE MEASURES AND SAVINGS SUBMISSION

In addition to the other obligations contained in this Agreement, the Participant will fulfill the following obligations in order to maintain its eligibility in the Program and as a condition of receiving any Performance Incentives:

- (a) The Participant will implement Eligible Measures for each Facility before the end of the second Pay-For-Performance Period.
- (b) After the generation of the Baseline Energy Model for a Facility via the EPP Portal, the Participant will not enroll in any program or initiative incentivizing electricity savings and/or peak demand savings undertaken by the Government of Ontario or the IESO to receive any incentives for that Facility. The Participant will inform IESO if any projects receiving electricity saving incentives and/or peak demand savings are commissioned after the Baseline Energy Model has been accepted by the Participant, and this will trigger an NRA at the discretion of the IESO.
- (c) Each Facility shall achieve a minimum of five percent (5%) of the Total Electricity Savings by the end of the second Pay-for-Performance Period (the "**Minimum Savings**"). Further, and notwithstanding any renewal or extension of the Program, a Facility may participate in a maximum of three (3) consecutive Pay-for-Performance Periods.
- (d) Any Facility that does not achieve the Minimum Savings, may be eliminated from further participation in the Program at the sole discretion of the IESO, upon written notice by the IESO or Service Provider, and the Participant shall not be entitled to any further Performance Incentive with respect to such Facility and the Participant shall reimburse the IESO for any Pre-Project Incentive the IESO provided but which the Participant did not subsequently earn in respect of the Facility. Any Facility that does not achieve the Minimum Savings and is not eliminated from further participation pursuant to this section shall reimburse the IESO for any Pre-Project Incentive provided but which the Participant did not subsequently earn upon completion of the third Pay-for-Performance Period for the Facility.
- (e) The Participant must submit to the IESO the Facility energy data and associated information required by the Savings Submission via the EPP Portal within 30 days following the expiration of the Pay-for-Performance Period in respect of each such Facility. The Participant shall notify the Service Provider of any Measures that are not Eligible Measures and which it has implemented during the Pay-for-Performance Period.
- (f) In the event this Agreement is terminated in accordance with Section 5(b)(ii), the Participant may notify the Service Provider of any completed portion of a Pay-for-Performance Period, ending on the earlier of (i) the date of termination of this Agreement or (ii) the otherwise occurring end of the relevant Pay-for-Performance Period. Any Performance Incentives owing for such partial Pay-for-Performance Period shall be paid based on the length of such partial Pay-for-Performance Period.

3. PERFORMANCE INCENTIVES

- (a) Subject to the terms and conditions of this Agreement, the IESO will pay the Performance Incentive for each Facility less the amount of the Pre-Project Incentive(s) received by the Participant until exhausted. The Performance Incentive shall be calculated for each Pay-for-Performance Period as follows:
 - (i) Off-Peak Energy Incentive Rate of \$0.08/kWh multiplied by the Off-Peak Electricity Savings; and
 - (ii) On-Peak Energy Incentive Rate of \$0.30/kWh multiplied by the On-Peak Electricity Savings.
- (b) The Performance Incentive for each Facility shall not exceed the Off-Peak Energy Incentive Rate multiplied by 20% of the Baseline Energy Consumption (the "**Incentive Cap**").
- (c) The Participant shall invoice the IESO for the Performance Incentive listed in the approved Savings Report, and the IESO will pay, at its sole discretion, the Performance Incentive listed in the approved Savings Report, less the amount of the Pre-Project Incentive(s) received by the Participant until exhausted, within a reasonable period following receipt of such invoices, which period may be more than 90 days and via electronic funds transfer or by cheque issued by the IESO or its subcontractor. Once a payment is made by the IESO to the Participant, the Participant shall be responsible for ensuring the payment is received and deposited or cashed accordingly. The IESO will not pay, and the Participant will not be entitled to any payment referred to herein unless the Participant has provided all supporting documentation and evidence as required by this Agreement or as otherwise requested by the IESO.

4. COMMUNICATION WITH SERVICE PROVIDER

The IESO reserves the right to engage a third-party service provider (including the Service Provider), at any time, to exercise or perform any of the IESO's rights or obligations under this Agreement, in full or in part, including with respect to the administration of the Program, the review of the Application or any other program deliverables, the payment of the Participant Incentives or any other activities described in this Agreement. The Participant shall cooperate and provide on a timely basis the requested information to the IESO or the Service Provider should the IESO or the Service Provider require clarification from the Participant related to any reports or information required under this Agreement. The Participant shall, at the same time as it provides information to the Service Provider, provide a copy of such information to the IESO.

Communications to the Service Provider shall be sent to info@energyperformanceprogram.ca.

5. TERM, TERMINATION AND SURVIVAL

- (a) This Agreement will terminate upon the completion of the third Pay-for-Performance Period for the latest approved Facility that is incorporated into and forms part of this Agreement,

provided that such Pay-for-Performance Period expires by December 31, 2030 (the "**Term**"), unless terminated earlier in accordance with the terms of this Agreement.

- (b) This Agreement will terminate on the expiry of the Term as provided in Section 5(a) or earlier:
 - (i) as a result of the Participant's failure to observe or perform any obligation required to be observed or performed under this Agreement and such failure continues for a period of thirty (30) calendar days after delivery of written notice by the IESO to cure such failure; or
 - (ii) upon 60 days' notice by the IESO; or
 - (iii) if the Participant becomes or is declared Insolvent, becomes the subject of any proceeding related to its liquidation or insolvency which is not dismissed within ninety (90) calendar days, or makes an assignment for the benefit of creditors; or
 - (iv) at the sole discretion of IESO, where the Participant did not achieve the Minimum Savings for a Facility.
- (c) If the IESO terminates the Agreement or a Facility from the Program, pursuant to Section 5(b) or 2(d), respectively, the Participant shall reimburse the IESO for any Pre-Project Incentive the IESO provided but which the Participant did not subsequently earn under the Agreement or in respect of the Facility, as the case may be.
- (d) Sections 2(d), 5(c), 6, 8, 10, 11, 12, 13, 14, and 17(d) and (e), and such other provisions as are necessary for the interpretation thereof and any other provisions hereof, the nature and intent of which is to survive termination or expiration of this Agreement, will survive the expiration or termination of this Agreement. Without limiting the generality of the foregoing, if the Participant is entitled to receive a Performance Incentive(s) pursuant to the Agreement after the expiration of the Term, then the provisions of the Agreement applicable to such Performance Incentive will survive the termination of the Agreement.

6. ENVIRONMENTAL ATTRIBUTES

purchase and installed, the total incentive amount paid to the Participant and funded by the IESO in respect of the Measure, divided by the total amount of actual costs incurred by the Participant that meet the eligibility requirements for such costs set out under these terms and conditions, multiplied by 100, and expressed as a percentage.

 - (ii) certify, obtain, qualify and register with the relevant authorities or agencies IESO Environmental Attributes that are created and allocated or credited pursuant to applicable laws and regulations from time to time for the purpose of transferring such IESO Environmental Attributes to the IESO. The Participant will be entitled to reimbursement by the IESO of the cost of complying with such a direction provided that the IESO, acting reasonably, has approved such cost of compliance in writing prior to the cost being incurred and provided that such reimbursement will be limited to: (x) the total amount of such cost of compliance that have been approved in advanced by the IESO, multiplied by (y) the applicable Environmental Attributes Funding Percentage.

2. A Party desiring arbitration hereunder will give written notice of arbitration to the other Party containing a concise description of the matter submitted for arbitration ("**Notice of Arbitration**"). If the Parties fail to jointly appoint an Arbitrator within 20 days thereafter, an Arbitrator will be designated by a judge of the Ontario Superior Court of Justice upon application by either Party. The Arbitrator may determine all questions of law, fact and jurisdiction with respect to the dispute or the arbitration (including questions as to whether a dispute is arbitrable) and all matters of procedure relating to the arbitration. The Arbitrator may grant legal and equitable relief (including injunctive relief), award costs (including legal fees and the costs of the arbitration), and award interest.

There will be no appeal from the decision of the Arbitrator to any court, except on the grounds that the conduct of the Arbitrator, or the decision itself, violated the provisions of the *Arbitration Act*, 1991 (Ontario), or solely on a question of law as provided for in such act. Judgment upon any award rendered by the Arbitrator may be entered in any court having jurisdiction thereof.
5. Submission to arbitration under this Schedule "C" is intended by the Parties to preclude any action in matters which may be arbitrated hereunder, save and except for enforcement of any arbitral award hereunder.
